PD-9001G-40/SP/AC - 1-Port High-Power, 40W Per Port, 10/100/1000 BaseT Midspan

The PowerDsine 9001G-40/SP is a single port, highpower solution for remote powering of current and emerging high power applications. In addition to PoE midspan functionality, the PD-9001G-40/SP provides Surge Protection functionality optimal for the installation of outdoor PDs. Generating up to 40W, the 9001G-40/SP enables remote power for a new range of applications including 802.11 Access Points, pan-tilt-zoom (PTZ) cameras and WiMAX CPE. It complies with IEEE 802.3at and is backward compatible with the IEEE802.3af PoE standard. It can power both existing 10/100Base-T network devices and emerging wireless 1000Base-T devices such as Wi-MAX and wireless IEEE 802.11n access points.

Features

- Up to 40W of Power on 2-pairs
- IEEE 802.3at Compliant with 2-event classification
- IEEE 802.3af backward compatible
- Surge protection according to GR 1089
- Safe and Reliable Power to WLAN Access Points
- Supports 10/100/1000Base-T applications
- Compact Design with 1U height
