Description

Frequenza/Standard

Frequency:13,56 MHz.

ISO 14443A compliant, supports NXP MIFARE & NXP MIFARE DESFire.

Interfacce & I/O

SDIO (Secure Digital).

LED Indicator for standby, search and data communications

Antenna

Integrated Antenna

Applicazioni

Designed to plug into any Personal Digital Assistant (PDA), Smartphone or other hand-held device with an SD

slot.

Dati Tecnici

Power supply via SDIO

Low Power Consumption:

- 5 mA standby

- 150 mA field scanning

Compact and reliable design.

Caratteristiche

NFCIP-1, ISO 18092 compliant, supports contactless payment, peer to peer communication, data exchange speed up to 424 kbit/s. Integrated SAM (Secure Access Module)..

Opzioni/Modelli

Available NFC standard.

SDK with SDiD 1010(P.N. 9916-052-10).

Note

Sample software included.

SDK not included (ask for developer Kit).

Prezzo unitario indicativo per quantitativi d'ordine di inferiori a 9 pezzi.

Contattateci per quantitativi superiori.
